

BST METAL DETECTABLE MOB CAP

FEATURING A FOIL STRIP

PAGE 1 of 2

Product Specifications

PE14029T | Revised September 2018

Product Description:	BST Detectable Mob Caps feature a central foil strip for metal detectability, independently tested to give a detector reading equivalent to a 7mm ferrous test piece. The mob cap is made from a non-woven polypropylene material, featuring a dual elastic hem. Available in a wide range of colours to suit factory colour coordination schemes.
Product Code:	PE14029T
Detectability:	Part Metal Detectable
Pack Size:	1000 Pcs
Pack Weight:	4.0 Kg
Colour Availability:	Blue, Red, Green, Yellow, White
Product Advantages:	<ul style="list-style-type: none">✓ Detectable by conventional metal detection systems✓ Highly visible bright colours for easy visual identification✓ Significantly reduces foreign body hair contamination✓ Integral foil strip reduces the risk of the mop cap causing foreign body contamination
Product Material(s):	Non-woven polypropylene with a foil strip

BST METAL DETECTABLE MOB CAP

FEATURING A FOIL STRIP

PAGE 2 of 2

Metal Detectability:

Detectable mob caps feature a foil strip that when fully intact can give a detector reading equivalent to 7.0mm Ferrous. The detectability of this product will vary based upon the metal detection systems being used and their calibration. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
